HOSPITAL DISTRIBUTOR №1

We provide healthcare systems with essential products and specialized logistics services.

Unique portfolio of hospital products and medical devices. This synergistic approach helps to satisfy most of hospital needs.

EFFECTIVE TREATMENT OF INFECTIOUS DISEASES

Anti infective drugs: RELIABLE PARTNER TO COVER HOSPITAL NEEDS

In addition to monopreparations of antibiotics of various classes, we produce combined preparations designed to ensure high clinical effectiveness, including in cases of complex infections caused by various types of microorganisms.

PAIN MANAGEMENT

Research and develop up-to-date solutions for effective pain management.

We are changing the paradigm of procedural anesthesia.

Umerox® Device – regular use device for allows doctors to self-administer the methoxyflurane without anesthesiologists supervision.

Umerox® Inhal - single-use inhaler device allows patients to self-administer the methoxyflurane, under supervision

RESPIRATORY DISEASES

One of the main focuses in pulmonology is the search for new opportunities to improve the effectiveness of treatment and quality of life for patients with bronchial asthma and chronic obstructive pulmonary disease.

We offer patients and doctors a full range of solutions for nebulizer therapy – inhalation devices (nebulizers), medicines for use via a nebulizer, as well as a wide range of accessories for nebulizer therapy (masks, nebulizer chambers etc.).

DIALYSIS SOLUTIONS

KEY STRENGTHS:

- Solid experience and strong track-record in cooperation with the MOH and international procurement organizations.
- Deep understanding of mechanisms, models, and regulatory requirements for public procurement.
- Unrivalled position in CAPD (Continuous Ambulatory Peritoneal Dialysis) on the Ukrainian market and its further strengthening.

CHEMOTeka- 1ST ONCOLOGY COMPOUNDING PHARMACY IN UKRAINE

CHEMOTeka'S PORTFOLIO INCLUDES 25 DIFFERENT
CHEMOTHERAPY MOLECULES AND MEET
ALL PATIENTS/DOCTORS NEEDS:
